Genuine TABLE MOUNTED Ring Retractor System

GENUINE RING RETRACTOR SETS

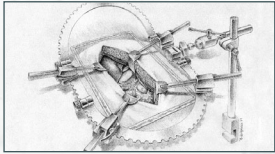

The genuine and established RZ Table Mounted Ring Retractor System provides a large variety of configurations. Every kit can be easily set up and adjusted multi-directional even for complex requirements thanks to flexible ratchet mechanisms. Any retractor can be applied to make the system an individual set.

- Large assortment of retractor blades in different sizes
- Expandable basic components to assemble a complex system
- Simple assembly and modifications before and during surgery
- Cost-effective due to reduced operation time
- All parts fully autoclavable

GENUINE RING RETRACTOR

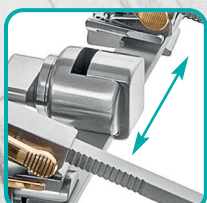

Height- and horizontal adjustable

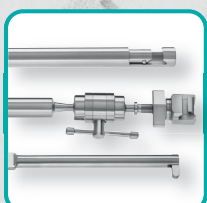

Safe and solid fixture to table and/or splint

Multidirectional hinges for complex set-ups

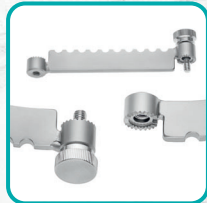

Solid and flexible footing of frame segments

Different bar designs allow standard and complex settings

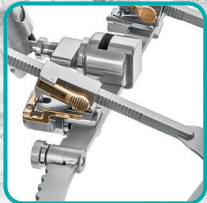

Sets can be combined with every blade type

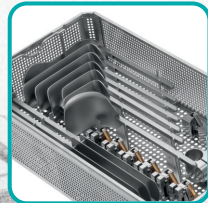

Segments height-adjustable and expandable

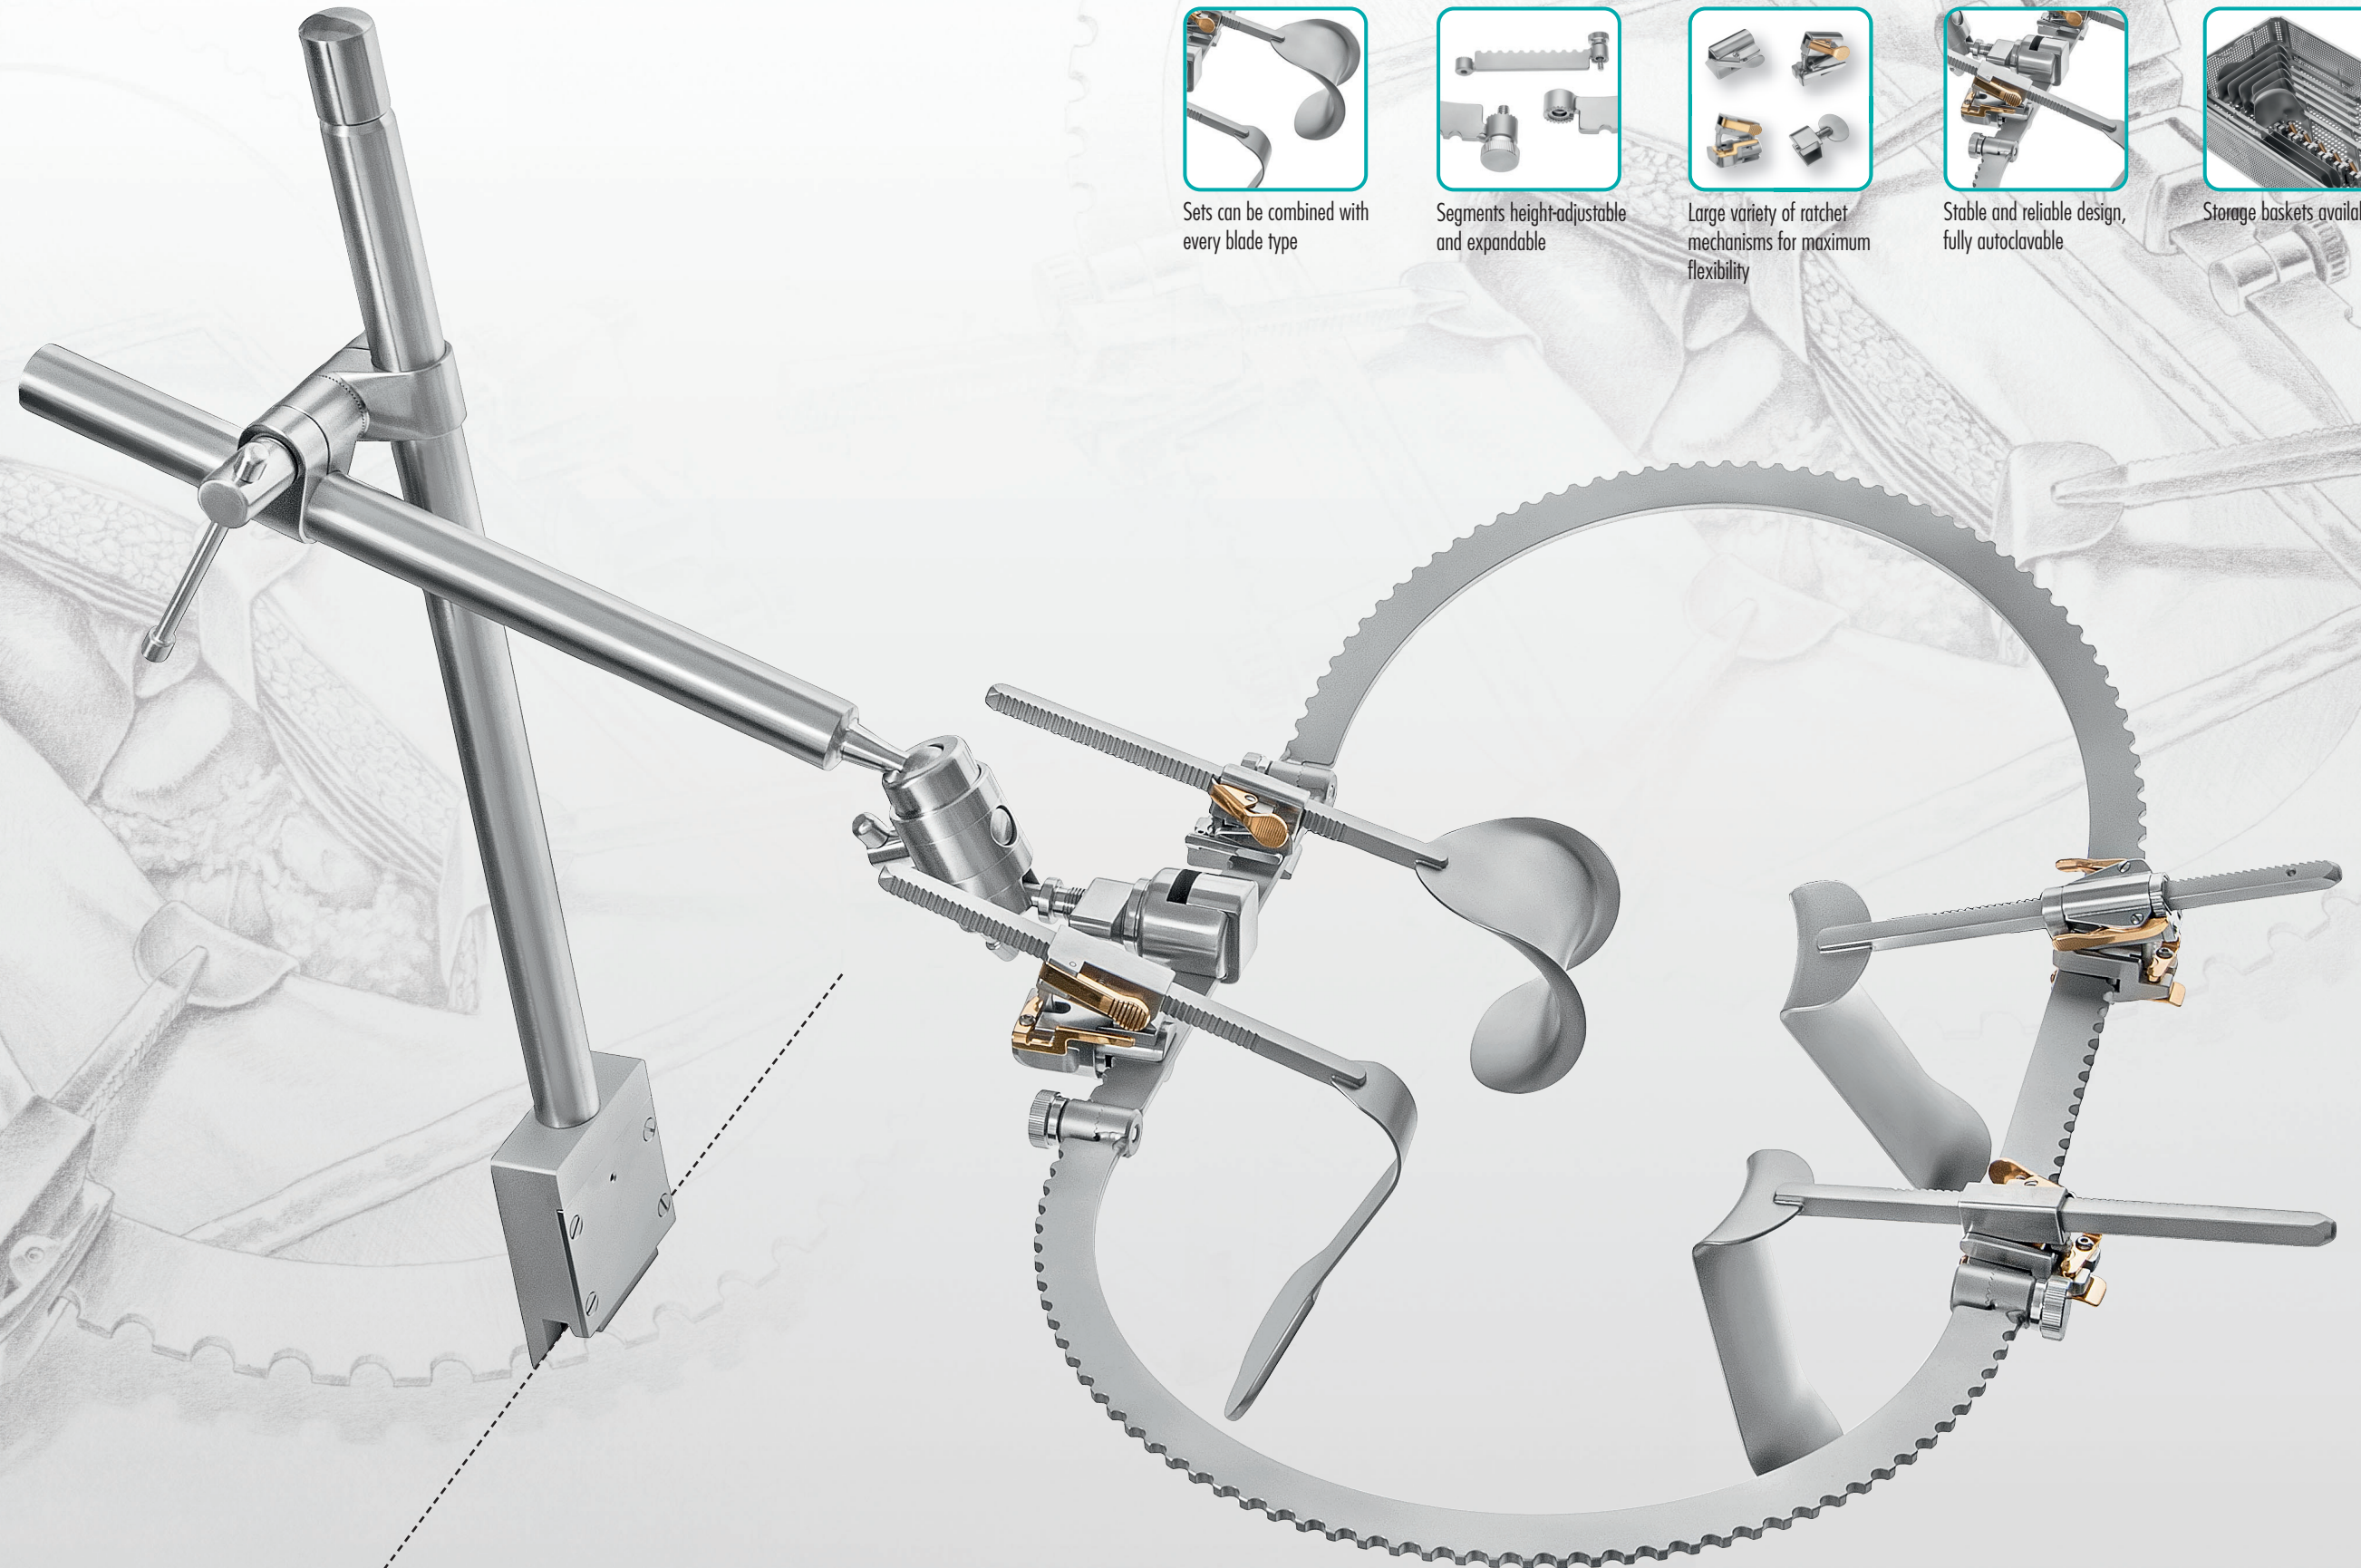

Large variety of ratchet mechanisms for maximum flexibility

Stable and reliable design, fully autoclavable

Storage baskets available

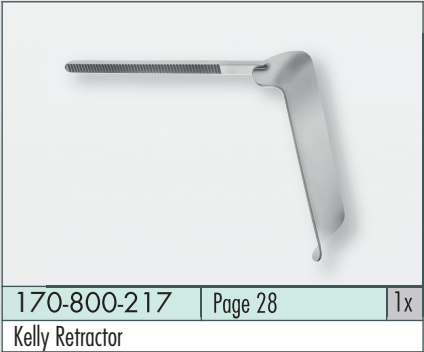

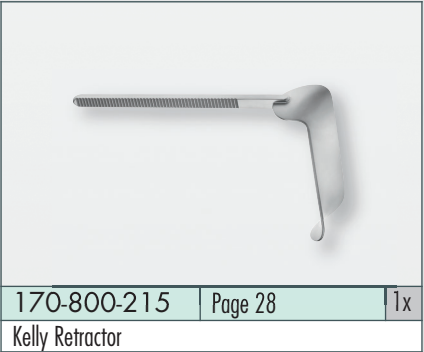

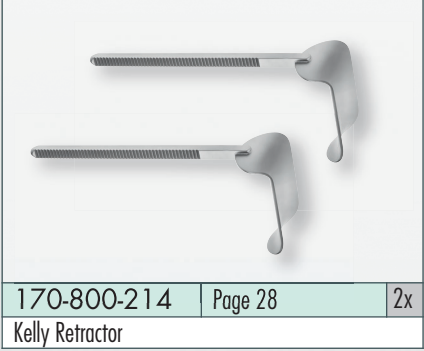

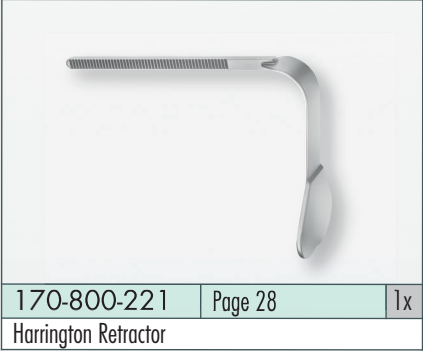

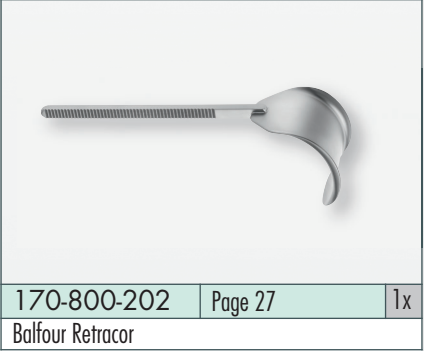

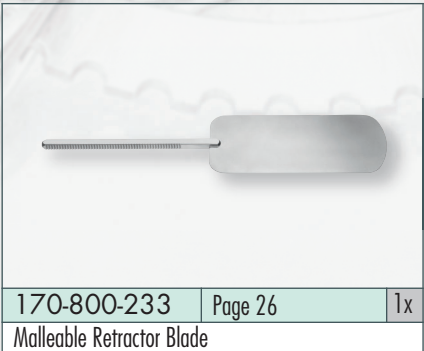

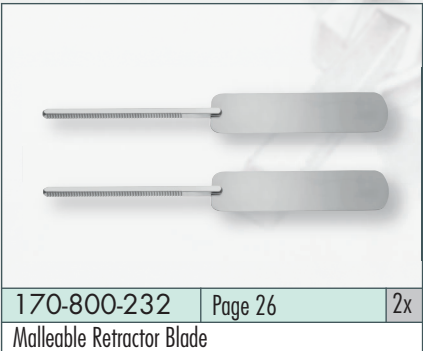

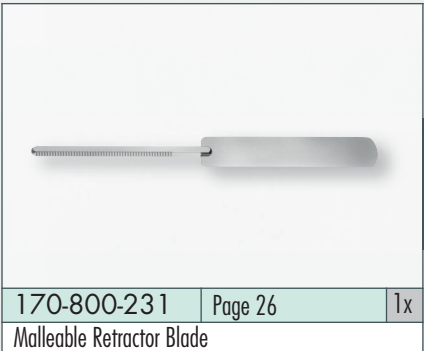

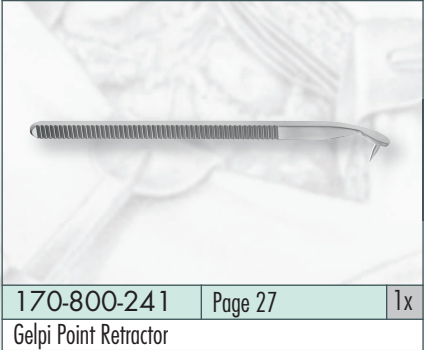

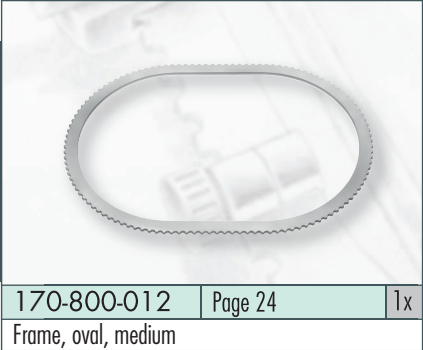

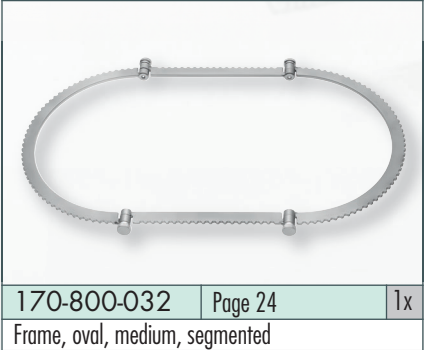

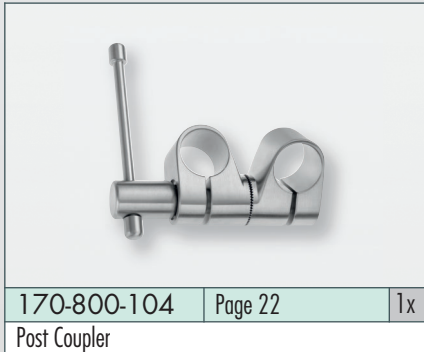

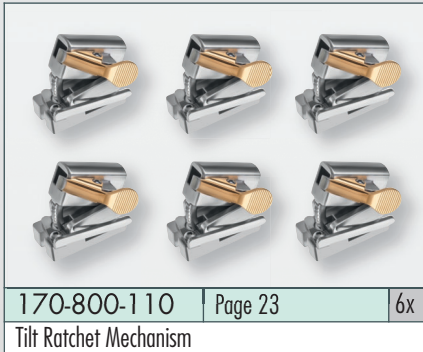

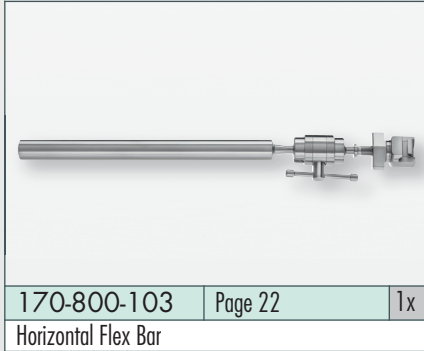

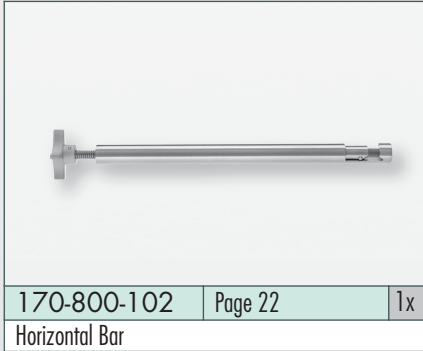

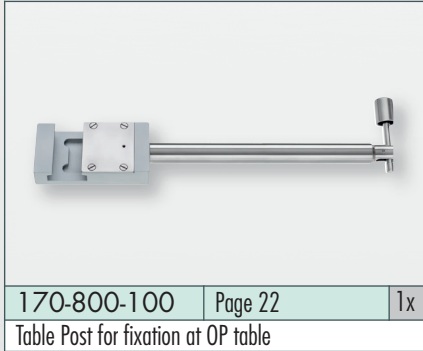

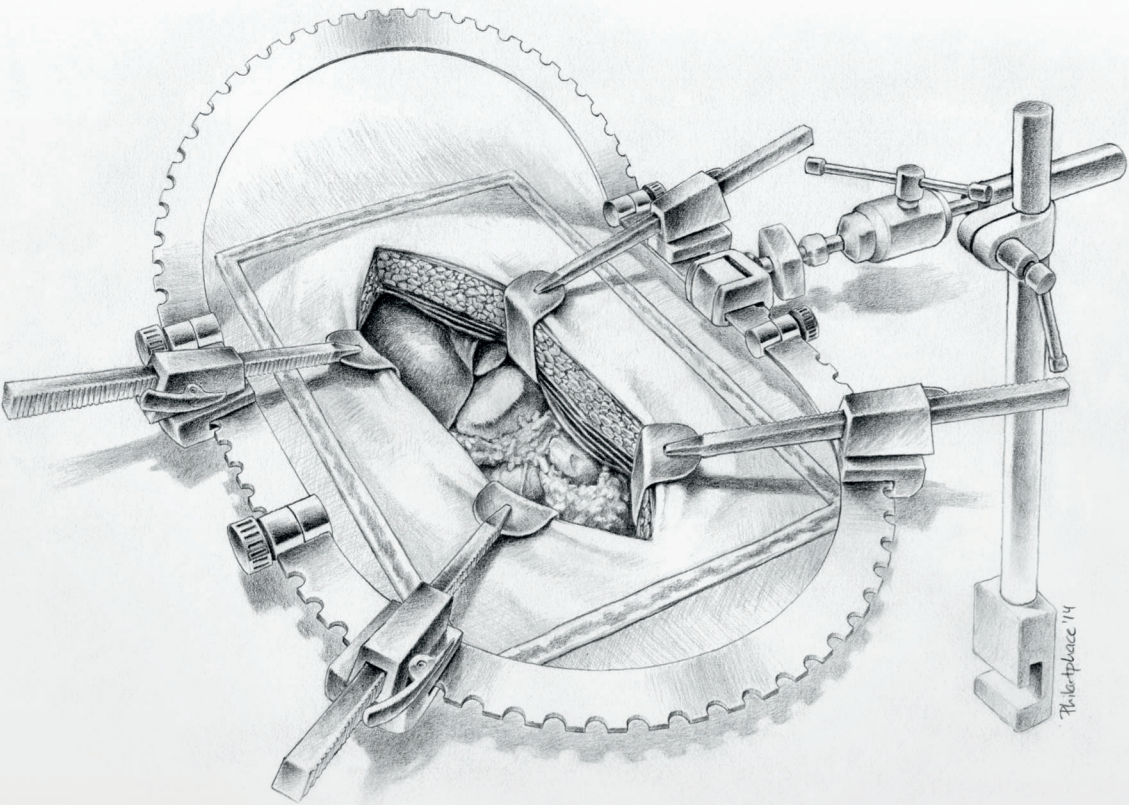

RING RETRACTOR KIT

Flexible and expandable Retractor kit for a wide field of applications. Ensures fast and simple readjustment, repositioning and replacement.
