# BIPOLAR MICRO-COAGULATION FORCEPS

RZ - Medizintechnik adds the state-of-the-art 360° Bipolar Micro-Coagulation Forceps to comply with the demand of the surgeons for a bipolar Micro Forceps with a minimal diameter of 3mm and using bipolar electricity.

This bipolar forceps can be used in the field of Ear Nose and Throat or in any other operations with very limited access for larger instruments. The large variety of jaws allows the surgeon to use his preferred jaw design.

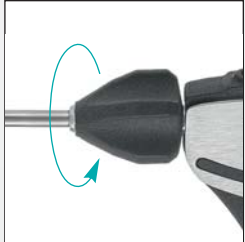

To comply with the demand of hygienists for easy cleaning and sterilisation we added a disposable single use cleaning and flushing tube, which allows the surgeon a better view during surgeries.

## Advantages:

- For operations with difficult accessible operation areas
- Bipolar technology for a maximum of patient safety
- Various popular electrode inserts, available
- Ergonomic, surgeon friendly handle design
- 3 piece take apart system with an additional single use cleaning and flushing tube
